ELITE 8

2K+2K 2-Channel Dash Camera with Sony STARVIS 2 Sensor

Features

DUAL HDR

HDR Powered Night Clarity

BlackVue ELITE Series offers improved dash cam performance with advanced HDR technology. It is designed to provide clear and well-balanced video recordings in both bright sunlight and low-light situations.

0.03 LUX NIGHT VISION

With HDR, ELITE 8 improves both brightness and clarity, resulting in well-balanced video with strong contrast.

Ultra Low-Light Boost: when it gets really dark, ELITE 8 further enhances sensitivity so you get clear details even with ambient light as low as 0.03 Lux.

Power Saving Parking Mode

Over 12-Month Parking Monitoring

* When paired with BlackVue Ultra Battery (B-130A).

Ultra Low Power Consumption: Under 1mAh

Ultra Fast Boot Time : Under 1 Second

Motion Detection

Records a 1-minute buffered video whenever a motion is detected by the front or rear camera.

Timelapse

Records constantly at 1 frame per second so each 1 minute video covers 30 minutes of real time.

*In both modes, the dash cam also records buffered Event clips in case of impact.

Specifications

RESOLUTION	2K QHD@30fps (Front) + 2K QHD@30fps (Rear)
HDR	Front & Rear
WIFI	Built-in (2.4/5GHz, 802.11a/b/g/n/ac)
GPS	Built-in (Dual Band : GPS, GLONASS)
PARKING MODE	Supported with Parking Mode Kit or Battery
MEMORY	Micro SD Card (64GB/128GB/256GB/512GB/1TB)
CLOUD	Supported with Wi-Fi hotspot or BlackVue LTE Module
PRODUCT DIMENSION	Front: 129.7mm(L) x 40mm(W) x 55.3mm(H) / 203.2g Rear: 67mm(L) x 29mm(W) x 39.1mm(H) / 38.8g
VIEWING ANGLE	Front: Diagonal 142°, Horizontal 118°, Vertical 62° Rear: Diagonal 142°, Horizontal 118°, Vertical 62°
RECORDING MODE	Normal recording Event recording (when impact is detected in normal and parking mode) Manual recording (File locked) Parking recording (when motion is detected) Power Saving (Supports extended parking mode by minimizing battery consumption)
